Every administrative unit with its members and the admins scoped to it, restricted units, and units with nobody in them or nobody administering them.

Filtered view. Scoped admins: 2 of 2 rows, 1 column hidden. Members: 1 of 4 rows, Unit is Branch offices. The headline figures cover every row.

Units	Scoped admins	Empty units	No scoped admin
3	2	1	1
1 dynamic unit, 1 restricted, 1 rule paused	Across 2 units	No users, groups or devices in them	Units no admin role is scoped to

Every unit 3 1 to review

Every administrative unit. A unit with nobody in it, or with no admin scoped to it, usually isn't doing anything; a dynamic unit whose rule is paused is no longer kept up to date. A restricted management unit also keeps tenant-wide admins (other than Global Administrators) from changing its members.

Flag	Unit	Membership	Restricted	Users	Groups	Devices	Scoped admins	Admins
Medium	Branch offices	Dynamic (paused)	Yes	1	0	1	1	Ben Okafor
	Sales	Assigned	No	2	1	0	1	Anna Kowalski
Low	Service desk	Assigned	No	0	0	0	0	–

Scoped admins 2 1 to review

Every admin role scoped to a unit rather than the whole tenant. An account whose sign-in is blocked has usually left: remove the role. A guest or an app with a scoped role deserves a look.

Flag	Account	Role	Unit	Assignment	Sign-in	Type
Medium	ben.okafor@fabrikam.example	Groups Administrator	Branch offices	Active	Blocked	Member
	anna.kowalski@fabrikam.example	Groups Administrator	Sales	Active	Allowed	Member

Members 1

The users and groups in each unit. Devices are counted above but not listed.

Unit	Member	Name	Type	Sign-in
Branch offices	ben.okafor@fabrikam.example	Ben Okafor	User	Blocked

An administrative unit scopes an admin role to the users, groups and devices in it. Scoped admins come from the role assignments Admin roles reads; roles assigned through PIM show as eligible.
