Sync status 2

Cloud-only tenant: accounts are created and managed in Microsoft 365, not synced from an on-premises Active Directory.

Setting	Last run (UTC)
Directory sync	–
Federated domains	–

Domains 1

Managed domains sign in through Entra ID (checking synced passwords in the cloud, or on-premises with pass-through authentication). Federated domains send sign-in to another identity provider, usually AD FS: if it is down, those users can't sign in.
