Harbour IT

PREPARED BY	DATE	CLIENTS
Harbour IT	29 Nov 2026	3

How people sign in and how strong that is: methods by strength, admins without phishing-resistant MFA, the methods policy, and password age and expiry.

Filtered view. Password age: 86 of 112 rows, Password last changed: older than 90 days. The headline figures cover every row.

Password age 86 8 to review

When each enabled member's password was last set. An old password matters most without MFA; an account that has never signed in may still have the password it was created with. Problems first, then oldest first.
