MICROSOFT 365 TENANT
3 clients

How people sign in and how strong that is: methods by strength, admins without phishing-resistant MFA, the methods policy, and password age and expiry.

Filtered view. Password age: 109 of 109 rows, 1 column hidden. The headline figures cover every row.

Password age 109

When each enabled member's password was last set. An old password matters most without MFA; an account that has never signed in may still have the password it was created with. Problems first, then oldest first.

Client	Password last changed	Never expires	Synced from on-premises	Last sign-in	MFA set up	What it means
