MICROSOFT 365 TENANT

3 clients

How people sign in and how strong that is: methods by strength, admins without phishing-resistant MFA, the methods policy, and password age and expiry.

**Filtered view.** Sign-in methods policy: 12 of 36 rows, Current is Off. The headline figures cover every row.

## Sign-in methods policy 12

Which methods people may register and use, from the tenant's authentication methods policy, against what's recommended for a small business.

| Flag  | Client                | Setting                                                           | Current | Recommended                        | Why                                                                     |
|-------|-----------------------|-------------------------------------------------------------------|---------|------------------------------------|-------------------------------------------------------------------------|
| ● Low | Contoso Legal LLP     | Authenticator shows where the sign-in is from                     | Off     | On (Microsoft managed turns it on) | Helps people spot a sign-in that isn't theirs.                          |
|       | Contoso Legal LLP     | Voice call                                                        | Off     | Off                                | Calls can be redirected, and are easy to approve by mistake.            |
|       | Contoso Legal LLP     | Temporary Access Pass                                             | Off     | On, for setting up passkeys        | A time-limited pass for setting up a new phone or passkey.              |
| ● Low | Contoso Legal LLP     | System-preferred MFA (asks for the strongest method a person has) | Off     | On, or Microsoft managed           | Otherwise people are asked for their own default, often a text message. |
| ● Low | Fabrikam Dental Group | Authenticator shows where the sign-in is from                     | Off     | On (Microsoft managed turns it on) | Helps people spot a sign-in that isn't theirs.                          |
|       | Fabrikam Dental Group | Voice call                                                        | Off     | Off                                | Calls can be redirected, and are easy to approve by mistake.            |
|       | Fabrikam Dental Group | Temporary Access Pass                                             | Off     | On, for setting up passkeys        | A time-limited pass for setting up a new phone or passkey.              |
| ● Low | Fabrikam Dental Group | System-preferred MFA (asks for the strongest method a person has) | Off     | On, or Microsoft managed           | Otherwise people are asked for their own default, often a text message. |
| ● Low | Northwind Traders     | Authenticator shows where the sign-in is from                     | Off     | On (Microsoft managed turns it on) | Helps people spot a sign-in that isn't theirs.                          |

| Flag  | Client            | Setting                                                           | Current | Recommended                 | Why                                                                     |
|-------|-------------------|-------------------------------------------------------------------|---------|-----------------------------|-------------------------------------------------------------------------|
|       | Northwind Traders | Voice call                                                        | Off     | Off                         | Calls can be redirected, and are easy to approve by mistake.            |
|       | Northwind Traders | Temporary Access Pass                                             | Off     | On, for setting up passkeys | A time-limited pass for setting up a new phone or passkey.              |
| ● Low | Northwind Traders | System-preferred MFA (asks for the strongest method a person has) | Off     | On, or Microsoft managed    | Otherwise people are asked for their own default, often a text message. |
