How people sign in and how strong that is: methods by strength, admins without phishing-resistant MFA, the methods policy, and password age and expiry.

**Filtered view.** Strongest method: 9 of 12 rows, Admins is 0, 1 column hidden. The headline figures cover every row.

Strongest method 9 6 to review

Each enabled member counted once, by the strongest method they have.

By strength

|                           |  |    |
|---------------------------|--|----|
| Phishing-resistant        |  | 19 |
| Phone (SMS or voice call) |  | 10 |
| None                      |  | 39 |

| Flag     | Client                | Strength                  | Admins | Share of members | What it means                                                                      |
|----------|-----------------------|---------------------------|--------|------------------|------------------------------------------------------------------------------------|
|          | Contoso Legal LLP     | Phishing-resistant        | 0      | 22%              | Bound to the real Microsoft sign-in page, so a fake page can't relay it.           |
| ● Medium | Contoso Legal LLP     | Phone (SMS or voice call) | 0      | 17%              | Weakest second factor: texts and calls can be intercepted or moved to another SIM. |
| ● Medium | Contoso Legal LLP     | None                      | 0      | 11%              | No second factor: the password alone gets in.                                      |
|          | Fabrikam Dental Group | Phishing-resistant        | 0      | 17%              | Bound to the real Microsoft sign-in page, so a fake page can't relay it.           |
| ● Medium | Fabrikam Dental Group | Phone (SMS or voice call) | 0      | 8%               | Weakest second factor: texts and calls can be intercepted or moved to another SIM. |
| ● Medium | Fabrikam Dental Group | None                      | 0      | 47%              | No second factor: the password alone gets in.                                      |
|          | Northwind Traders     | Phishing-resistant        | 0      | 17%              | Bound to the real Microsoft sign-in page, so a fake page can't relay it.           |
| ● Medium | Northwind Traders     | Phone (SMS or voice call) | 0      | 9%               | Weakest second factor: texts and calls can be intercepted or moved to another SIM. |
|          |                       |                           |        |                  |                                                                                    |

| Flag     | Client            | Strength | Admins | Share of members | What it means                                 |
|----------|-------------------|----------|--------|------------------|-----------------------------------------------|
| ● Medium | Northwind Traders | None     | 0      | 34%              | No second factor: the password alone gets in. |
