MICROSOFT 365 TENANT  
3 clients

How people sign in and how strong that is: methods by strength, admins without phishing-resistant MFA, the methods policy, and password age and expiry.

**Filtered view.** Strongest method: 6 of 12 rows, Admins is 1. The headline figures cover every row.

## Strongest method 6 3 to review

Each enabled member counted once, by the strongest method they have.

### By strength

|                            |             |    |
|----------------------------|-------------|----|
| Authenticator app or token | <div></div> | 38 |
| None                       | <div></div> | 42 |

| Flag     | Client                | Strength                   | People | Admins | Share of members | What it means                                                                 |
|----------|-----------------------|----------------------------|--------|--------|------------------|-------------------------------------------------------------------------------|
|          | Contoso Legal LLP     | Authenticator app or token | 9      | 1      | 47%              | Strong, but a convincing fake sign-in page can relay a code or push approval. |
| ● Medium | Contoso Legal LLP     | None                       | 3      | 1      | 16%              | No second factor: the password alone gets in.                                 |
|          | Fabrikam Dental Group | Authenticator app or token | 15     | 1      | 28%              | Strong, but a convincing fake sign-in page can relay a code or push approval. |
| ● Medium | Fabrikam Dental Group | None                       | 26     | 1      | 48%              | No second factor: the password alone gets in.                                 |
|          | Northwind Traders     | Authenticator app or token | 14     | 1      | 39%              | Strong, but a convincing fake sign-in page can relay a code or push approval. |
| ● Medium | Northwind Traders     | None                       | 13     | 1      | 36%              | No second factor: the password alone gets in.                                 |
