How people sign in and how strong that is: methods by strength, admins without phishing-resistant MFA, the methods policy, and password age and expiry.

Filtered view. Strongest method: 4 of 12 rows, Client is Northwind Traders, 1 column hidden. The headline figures cover every row.

Strongest method 4 2 to review

Each enabled member counted once, by the strongest method they have.

By strength

Phishing-resistant		6
Authenticator app or token		14
Phone (SMS or voice call)		3
None		13

Flag	Client	People	Admins	Share of members	What it means
	Northwind Traders	6	0	17%	Bound to the real Microsoft sign-in page, so a fake page can't relay it.
	Northwind Traders	14	1	39%	Strong, but a convincing fake sign-in page can relay a code or push approval.
● Medium	Northwind Traders	3	0	8%	Weakest second factor: texts and calls can be intercepted or moved to another SIM.
● Medium	Northwind Traders	13	1	36%	No second factor: the password alone gets in.
