How people sign in and how strong that is: methods by strength, admins without phishing-resistant MFA, the methods policy, and password age and expiry.

**Filtered view.** Strongest method: 3 of 12 rows, People is 3, 1 column hidden. The headline figures cover every row.

Strongest method 3 3 to review

Each enabled member counted once, by the strongest method they have.

By strength

|                           |             |   |
|---------------------------|-------------|---|
| Phone (SMS or voice call) | <div></div> | 6 |
| None                      | <div></div> | 3 |

| Flag     | Client            | Strength                  | People | Share of members | What it means                                                                      |
|----------|-------------------|---------------------------|--------|------------------|------------------------------------------------------------------------------------|
| ● Medium | Contoso Legal LLP | Phone (SMS or voice call) | 3      | 16%              | Weakest second factor: texts and calls can be intercepted or moved to another SIM. |
| ● Medium | Contoso Legal LLP | None                      | 3      | 16%              | No second factor: the password alone gets in.                                      |
| ● Medium | Northwind Traders | Phone (SMS or voice call) | 3      | 8%               | Weakest second factor: texts and calls can be intercepted or moved to another SIM. |
