Users, teams and Microsoft 365 groups in the recycle bin, with the licences they held and the days left to restore each before Microsoft deletes it for good after 30 days.

Deleted teams and groups 6 3 to review

Microsoft 365 groups and teams deleted in the last 30 days, which can still be restored with their mailbox, files, chats and members. Teams with 7 days or less left are flagged. Only Microsoft 365 groups go to the recycle bin: deleted security groups and distribution lists are gone straight away.
