MICROSOFT 365 TENANT  
3 clients

Which platforms have a compliance policy, what each compliance policy requires, configuration profiles and Windows update rings, endpoint security policies and app protection for phones, with whom each applies to.

**Filtered view.** Coverage by platform: 9 of 9 rows, 1 column hidden. The headline figures cover every row.

## Coverage by platform 9 3 to review

For each platform, the devices enrolled in Intune and how many policies assigned to someone cover it. A device with no compliance policy counts as compliant unless Intune's compliance settings say otherwise, so Conditional Access can't tell it apart.

| Flag     | Client                | Platform   | Compliance policies | Configuration profiles | Endpoint security and settings catalog | App protection |
|----------|-----------------------|------------|---------------------|------------------------|----------------------------------------|----------------|
