Which platforms have a compliance policy, what each compliance policy requires, configuration profiles and Windows update rings, endpoint security policies and app protection for phones, with whom each applies to.

Filtered view. Coverage by platform: 1 of 9 rows, Enrolled devices is 36. The headline figures cover every row.

Coverage by platform 1

For each platform, the devices enrolled in Intune and how many policies assigned to someone cover it. A device with no compliance policy counts as compliant unless Intune's compliance settings say otherwise, so Conditional Access can't tell it apart.
