MICROSOFT 365 TENANT

How much mail each domain sends and receives, how much was delivered, sent to Junk, quarantined or failed, and who gets the most spam and phishing.

Mail per domain 3 3 to review

Mail counted for each of the tenant's domains since 1 Oct 2026, one count per message and recipient: received from outside, sent outside, and between colleagues. Junk is mail delivered to the Junk Email folder; quarantined mail waits in the Defender portal's quarantine (Email & collaboration > Review > Quarantine); failed mail wasn't delivered (the sender gets a bounce). A domain where more than 5% of mail fails is flagged: check its MX record and any connectors.
