What other organisations' people can do here and whose MFA the tenant accepts (cross-tenant access), and the named locations Conditional Access trusts or blocks, with the policies using each.

Default for other organisations 15 3 to review

What applies to every organisation without settings of its own. B2B collaboration is guest accounts; B2B direct connect is Teams shared channels without a guest account. Trusting another organisation's MFA or devices lets its people pass your Conditional Access with checks made at home.
