Every unit 3 1 to review

Every administrative unit. A unit with nobody in it, or with no admin scoped to it, usually isn't doing anything; a dynamic unit whose rule is paused is no longer kept up to date. A restricted management unit also keeps tenant-wide admins (other than Global Administrators) from changing its members.

| Flag     | Unit           | Membership       | Restricted | Users | Groups | Devices | Scoped admins | Admins        |

## Scoped admins 1

Every admin role scoped to a unit rather than the whole tenant. An account whose sign-in is blocked has usually left: remove the role. A guest or an app with a scoped role deserves a look.

| Account                            | Name      | Role                 | Unit  | Assignment | Sign-in | Type   |
|------------------------------------|-----------|----------------------|-------|------------|---------|--------|
| ann.patel@northwindtraders.example | Ann Patel | Groups Administrator | Sales | Active     | Allowed | Member |

## Members 4

The users and groups in each unit. Devices are counted above but not listed.

| Unit           | Member                                 | Name               | Type  | Sign-in |
|----------------|----------------------------------------|--------------------|-------|---------|
| Branch offices | robert.hughes@northwindtraders.example | Robert Hughes      | User  | Blocked |
| Sales          | ann.patel@northwindtraders.example     | Ann Patel          | User  | Allowed |
| Sales          | g#EXT#@northwindtraders.example        | Sam Carter (guest) | Guest | Allowed |
| Sales          | sales@northwindtraders.example         | Sales              | Group | –       |

An administrative unit scopes an admin role to the users, groups and devices in it. Scoped admins come from the role assignments Admin roles reads; roles assigned through PIM show as eligible.
