Every unit 3 1 to review

Every administrative unit. A unit with nobody in it, or with no admin scoped to it, usually isn't doing anything; a dynamic unit whose rule is paused is no longer kept up to date. A restricted management unit also keeps tenant-wide admins (other than Global Administrators) from changing its members.

Flag	Unit	Membership	Restricted	Users	Groups	Devices	Scoped admins	Admins

Low	Service desk	Assigned	No	0	0	0	0	–

Scoped admins 1

Every admin role scoped to a unit rather than the whole tenant. An account whose sign-in is blocked has usually left: remove the role. A guest or an app with a scoped role deserves a look.

An administrative unit scopes an admin role to the users, groups and devices in it. Scoped admins come from the role assignments Admin roles reads; roles assigned through PIM show as eligible.
