Deleted teams and groups 2 1 to review

Microsoft 365 groups and teams deleted in the last 30 days, which can still be restored with their mailbox, files, chats and members. Teams with 7 days or less left are flagged. Only Microsoft 365 groups go to the recycle bin: deleted security groups and distribution lists are gone straight away.

	Marketing	Microsoft 365 group	marketing@northwindtraders.example	10 Oct 2026	9 Nov 2026	28	30 days

Microsoft keeps deleted users and Microsoft 365 groups for 30 days, then deletes them for good. Restore them in the Microsoft Entra admin center (Users > Deleted users, Groups > Deleted groups) or the Microsoft 365 admin center; Office Sentry only reads the recycle bin and never restores or deletes anything.
