Leavers without a hold 1 1 to review

1 mailbox of people who seem to have left is not on litigation hold. A hold keeps every message, including deleted ones, after the leaver's licence is removed or the mailbox is converted; without one, mail can be deleted and is gone for good once the licence goes. If the client needs to keep a leaver's mail, put the mailbox on hold (Exchange admin centre, Recipients > Mailboxes > the mailbox > Others > Manage litigation hold) before removing the licence.

Large mailboxes without an archive 3

3 mailboxes without an archive are over 80% of quota (or over 40 GB). Turning on the archive moves old mail out of the mailbox before sending stops.
