## Assignment problems 2

Licences that couldn't be assigned, licensed accounts without a usage location, and licences assigned both directly and by a group.

| Flag  | Account                                | Licence                        | Problem               | Group     | What it means                                                                                                                                 | What to do                                                              |
|-------|----------------------------------------|--------------------------------|-----------------------|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------|
| ● Low | robert.hughes@northwindtraders.example | Microsoft 365 Business Premium | No usage location     | –         | Microsoft needs a usage location (country) to assign a licence. Groups fall back to the organisation's country; assigning one directly fails. | Set the usage location on the account in the Microsoft 365 admin center |
| ● Low | ann.patel@northwindtraders.example     | Microsoft 365 Business Premium | Directly and by group | All Staff | Removing the account from the group won't remove the licence, which is how leavers keep licences.                                             | Remove the direct assignment so the group manages it                    |

## Groups that assign licences 1

Groups that hand out licences to their members (group-based licensing), how many people have a licence through each and how many assignments failed.

| Group     | Licences it gives              | People licensed through it | Errors | Members | Membership |
|-----------|--------------------------------|----------------------------|--------|---------|------------|
| All Staff | Microsoft 365 Business Premium | 2                          | 0      | –       | Dynamic    |

Costs use the monthly prices on the Licence prices page. Microsoft doesn't say whether a paid subscription renews automatically: check Billing > Your products in the Microsoft 365 admin center, or Partner Center for subscriptions you sell.
