Every unit 3 1 to review

Every administrative unit. A unit with nobody in it, or with no admin scoped to it, usually isn't doing anything; a dynamic unit whose rule is paused is no longer kept up to date. A restricted management unit also keeps tenant-wide admins (other than Global Administrators) from changing its members.

| Flag     | Unit           | Membership       | Restricted | Users | Groups | Devices | Scoped admins | Admins        |

## Scoped admins 1

Every admin role scoped to a unit rather than the whole tenant. An account whose sign-in is blocked has usually left: remove the role. A guest or an app with a scoped role deserves a look.

| Account                        | Name          | Role                 | Unit  | Assignment | Sign-in | Type   |
|--------------------------------|---------------|----------------------|-------|------------|---------|--------|
| anna.kowalski@fabrikam.example | Anna Kowalski | Groups Administrator | Sales | Active     | Allowed | Member |

## Members 4

The users and groups in each unit. Devices are counted above but not listed.

| Unit           | Member                         | Type  | Sign-in |
|----------------|--------------------------------|-------|---------|
| Branch offices | ben.okafor@fabrikam.example    | User  | Blocked |
| Sales          | anna.kowalski@fabrikam.example | User  | Allowed |
| Sales          | g#EXT#@fabrikam.example        | Guest | Allowed |
| Sales          | sales@fabrikam.example         | Group | –       |

An administrative unit scopes an admin role to the users, groups and devices in it. Scoped admins come from the role assignments Admin roles reads; roles assigned through PIM show as eligible.
