SharePoint groups 3

Each site's SharePoint groups: its owners, members and visitors groups and any others, what each grants on the site and who is in it. A guest in an owners group has full control of the site.

Site	Group	Role on the site	Permission level	Guests	Group owner
Practice Management	Practice Management Owners	Owners	Full Control	None	Practice Management Owners
Practice Management	Practice Management Members	Members	Edit	None	Practice Management Owners
Practice Management	Practice Management Visitors	Visitors	Read	None	Practice Management Owners

Lists and libraries with their own permissions 2

Lists and libraries that stopped inheriting their site's permissions, so the site's groups don't say who can open them. Each is worth a look: the reason is often a one-off that was never undone.

Flag	Site	List or library	Type	Items	Who can open it
	Finance	Payroll	Library	64	Finance Owners (Full Control), Zara Edwards (Edit)
● Low	Patient Records	Lab referrals	Library	38	Patient Records Owners (Full Control), Patient Records Members (Contribute), Lab (Read)

Subsites with their own permissions 1

Subsites that don't inherit their parent site's permissions.

Site	Subsite	Who can open it
Staff Intranet	HR	Staff Intranet Owners (Full Control), Zara Edwards (Edit)

Access by person 33 1 to review

Everyone who can get into at least one site, through any group or directly, with guests and outside accounts first. Microsoft 365 and security groups are opened up where the Groups collection has their members.
