Check each is expected

Remote access tools 2

Apps that let someone control a computer from elsewhere. Check each is one you or the client use: attackers install these too, and an unexpected one is often how ransomware gets in.

Flag	App	Tool	Publisher	Platform	Versions	Devices
Low	ScreenConnect Client (a1b2c3d4e5f6)	ScreenConnect	ConnectWise, LLC.	Windows	24.3.7.9067	12
Low	AnyDesk	AnyDesk	AnyDesk Software GmbH	Windows	9.0.5	1

Apps 6

Each app once, most installed first. Devices adds up every version, so a device with two versions of an app counts twice. Apps on 3 or more versions are worth updating everywhere.

App	Publisher	Platform	Versions	Newest version	Devices
Google Chrome	Google LLC	Windows	3	141.0.7390.66	12
Microsoft 365 Apps for business - en-gb	Microsoft Corporation	Windows	1	16.0.19127.20264	12

Zoom Workplace	Zoom Communications, Inc.	macOS	1	6.6.0	3
AnyDesk	AnyDesk Software GmbH	Windows	1	9.0.5	1

Every version 8

Each version Intune found, newest first, for finding the devices still on an old one (in Intune: Apps > Monitor > Discovered apps).

App	Version	Publisher	Platform	Devices
