Who owns, administers and can reach each SharePoint site: ownerless sites, guests, and sites open to everyone in the organisation.

Filtered view. Access by site: 5 of 28 rows, Site is Operations. The headline figures cover every row.

Sites needing an owner 3 1 to review

A site with no enabled owner has nobody to approve access or answer for its content; one owner is one leaver away from that. Owners are the Microsoft 365 group's owners, or for a site with no group its site administrators and the people in its owners group.
