Assignment problems 2

Licences that couldn't be assigned, licensed accounts without a usage location, and licences assigned both directly and by a group.

Flag	Account	Licence	Problem	What it means	What to do
● Low	bobby.marsh@contoso.example	Microsoft 365 Business Premium	No usage location	Microsoft needs a usage location (country) to assign a licence. Groups fall back to the organisation's country; assigning one directly fails.	Set the usage location on the account in the Microsoft 365 admin center
● Low	annabel.fraser@contoso.example	Microsoft 365 Business Premium	Directly and by group	Removing the account from the group won't remove the licence, which is how leavers keep licences.	Remove the direct assignment so the group manages it

Groups that assign licences 1

Groups that hand out licences to their members (group-based licensing), how many people have a licence through each and how many assignments failed.

Group	Licences it gives	People licensed through it	Errors	Members	Membership
All Staff	Microsoft 365 Business Premium	2	0	–	Dynamic

Costs use the monthly prices on the Licence prices page. Microsoft doesn't say whether a paid subscription renews automatically: check Billing > Your products in the Microsoft 365 admin center, or Partner Center for subscriptions you sell.
