Renewals and expiry 2

Each subscription and the date it next renews, lapses or is deleted. Trials and subscriptions in their grace period, suspended or locked come first.

| Flag  | Licence                        | Subscription ID | Status    | Licences | Started    | Next renewal or end | Ends within | What happens                                                                                                              |

|       | Microsoft 365 Business Premium | c-sub-bp        | Active    | 10       | 1 Mar 2025 | 13 Mar 2027         | Later       | Renews on this date if it's set to renew automatically; otherwise it expires then. Check the billing settings.            |

## Who has which licence 1

One row for each licence each account holds, and whether it was assigned directly or by a group. Filter by licence to see who has it.

| Flag  | Account                        | Licence                        | Assigned              | Groups    | State  | Usage location | Sign-in |
|-------|--------------------------------|--------------------------------|-----------------------|-----------|--------|----------------|---------|
| ● Low | annabel.fraser@contoso.example | Microsoft 365 Business Premium | Directly and by group | All Staff | Active | GB             | Allowed |

## Assignment problems 2

Licences that couldn't be assigned, licensed accounts without a usage location, and licences assigned both directly and by a group.

| Flag  | Account                        | Licence                        | Problem               | Group     | What it means                                                                                                                                 | What to do                                                              |
|-------|--------------------------------|--------------------------------|-----------------------|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------|
| ● Low | bobby.marsh@contoso.example    | Microsoft 365 Business Premium | No usage location     | –         | Microsoft needs a usage location (country) to assign a licence. Groups fall back to the organisation's country; assigning one directly fails. | Set the usage location on the account in the Microsoft 365 admin center |
| ● Low | annabel.fraser@contoso.example | Microsoft 365 Business Premium | Directly and by group | All Staff | Removing the account from the group won't remove the licence, which is how leavers keep licences.                                             | Remove the direct assignment so the group manages it                    |

## Groups that assign licences 1

Groups that hand out licences to their members (group-based licensing), how many people have a licence through each and how many assignments failed.

| Group     | Licences it gives              | People licensed through it | Errors | Members | Membership |
|-----------|--------------------------------|----------------------------|--------|---------|------------|
| All Staff | Microsoft 365 Business Premium | 2                          | 0      | –       | Dynamic    |

Costs use the monthly prices on the Licence prices page. Microsoft doesn't say whether a paid subscription renews automatically: check Billing > Your products in the Microsoft 365 admin center, or Partner Center for subscriptions you sell.
