What users and guests can do by default, and whether users can ask an admin to approve apps.

Filtered view. Settings: 7 of 9 rows, Value is Not reported. The headline figures cover every row.

Settings 7

What users and guests can do without an admin. Most of these are allowed by default.

| Setting                                             | Value        | Recommended |
|-----------------------------------------------------|--------------|-------------|
| Users can create tenants                            | Not reported | No          |
| People can join by verifying an email address       | Not reported | No          |
| Users can sign up for trials and free subscriptions | Not reported | No          |
| Users can create security groups                    | Not reported | No          |
| Users can look up other users in the directory      | Not reported | Yes         |
| Self-service password reset allowed                 | Not reported | Yes         |
| Legacy MSONline PowerShell blocked                  | Not reported | Yes         |

Admin consent requests 1

Whether users who can't consent to an app themselves can ask an admin to approve it.

| Setting                | Value | Recommended |
|------------------------|-------|-------------|
| Admin consent requests | Off   | On          |
